INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Gastonia Directory since 1934), present to subscribers and the general public, this, the 1971 edition of the Gastonia City Directory, which also includes Dallas, Lowell and Ranlo (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 City, County, State and National Directories).

Confidence in the growth of Gastonia's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gastonia to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gastonia Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Gastonia, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gastonia, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section, the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the numbers of the residences and business concerns are arranged in numerical order under the name of each

street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, and Zip Codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gastonia and vicinity.

The Gastonia Out-Of-Town City Directory Library

Through the courtesy of the publishers of the Gastonia City Directory, a Directory Library is maintained in the offices of the Gastonia Chamber Of Commerce, for free reference by the general public. This is one of more than 800 Directory Libraries installed in cities and towns throughout the United States, Canada, and Puerto Rico through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city plus miscellaneous other information.

Location and History

Gastonia is pleasantly and strategically located in the geographical center of the Piedmont Section of the Carolinas. This Piedmont is the section between the Coastal Plain on the east, and the mountains on the west; it runs northeast and southwest; its average elevation above sea level is about 800 feet; and it contains the greatest concentration of population and industry in the southeast. More people live within 50 miles of Gastonia than within 50 miles of any other city between Atlanta, Ga., and Washington, D. C.

The section which now contains Gastonia and Gaston County, was settled by Scotch-Irish and German settlers during the last half of the eighteenth century. These pioneers laid out their farms along the fertile countryside where only the Catawba Indians had previously lived. They treated the Indians

Gaston College consists of liberal arts, technical, and industrial education departments with over 5,000 students enrolled.

Twenty miles west of Gastonia is the Kings Mountain National Military Park. The battle of Kings Mountain was the turning point of the Revolutionary War. Thousands of tourists visit this historic spot every year. This is a picture of the battleground monument.

fairly; there was no trouble between the races; and the Catawbias fought with them against other Indian tribes and in their struggles during the Revolutionary War. It is no surprise that the Battle of Kings Mountain, the turning point of the Revolutionary War, was fought only 20 miles from Gastonia by these same pioneers who were determined to preserve their political and religious freedom.

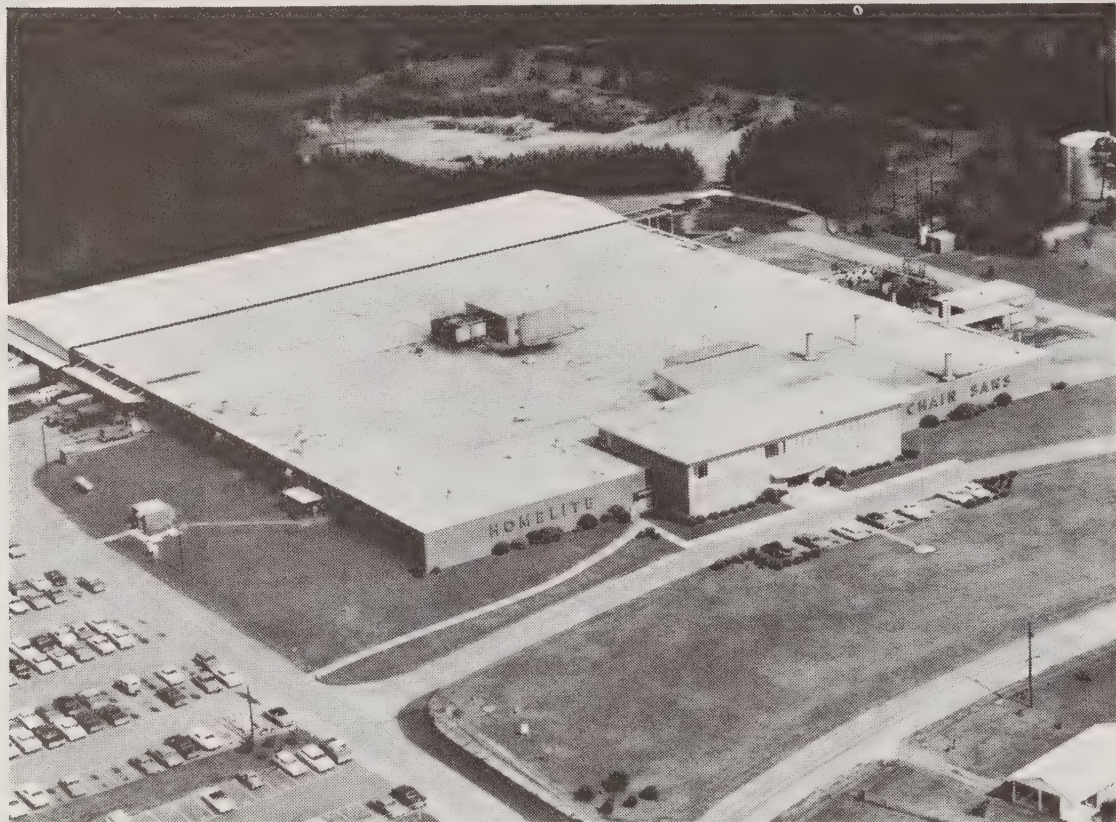

In 1846, Gaston County, of which Gastonia is the county seat, was formed by a division of Lincoln County. It derives its name from Colonel William Gaston, who was an associate justice of the Supreme Court of North Carolina, and a congressman from North Carolina serving in the House of Representatives. Gaston is relatively small in area, having only 363 square miles.

Gaston County was only two years old when its first cotton manufacturing plant, the Mountain Island Mill, began operations. In 1849, the Woodlawn, or "Pinhook Mill," began making textiles; and from these small beginnings the county has developed into the foremost textile manufacturing county in the nation—it consumes more cotton and has more active spindles than any other county.

From a predominantly agricultural economy in the beginning, Gastonia and its mother county have developed during the century into North Carolina's third largest industrial county. While Gaston has maintained its supremacy in textile manufacturing, it has also diversified and added to its long list of products, in the making of which 29,000 persons are employed.

From a crossroads settlement, Gastonia was incorporated in 1877, and has grown to over 47,000, with a metropolitan population of 67,000. Lots of its manufactured products have an international market, and its good industrial climate beckons other industries to come and enjoy its benefits. With all its rapid, but stable growth, it has not neglected its educational, cultural, religious and recreational facilities.

For several generations the predominant industry has been manufacturing, and with this background the people possess an inherited aptitude for mechanical work and an ability to compete successfully. Census reports indicated that 47% of employed persons are engaged in manufacturing and 32% in white collar occupations. Those employers who have had occasion to compare Gastonians with those from elsewhere are very positive in their tributes as to their loyalty and the readiness with which they acquire mechanical skills. They are quick and eager to learn, cooperative and friendly in their attitude to their employer, and basically conservative in their thinking.

Homelite, a division of Textron, Inc. is located in Gaston County. Chain saws and motors for mowing equipment are manufactured.

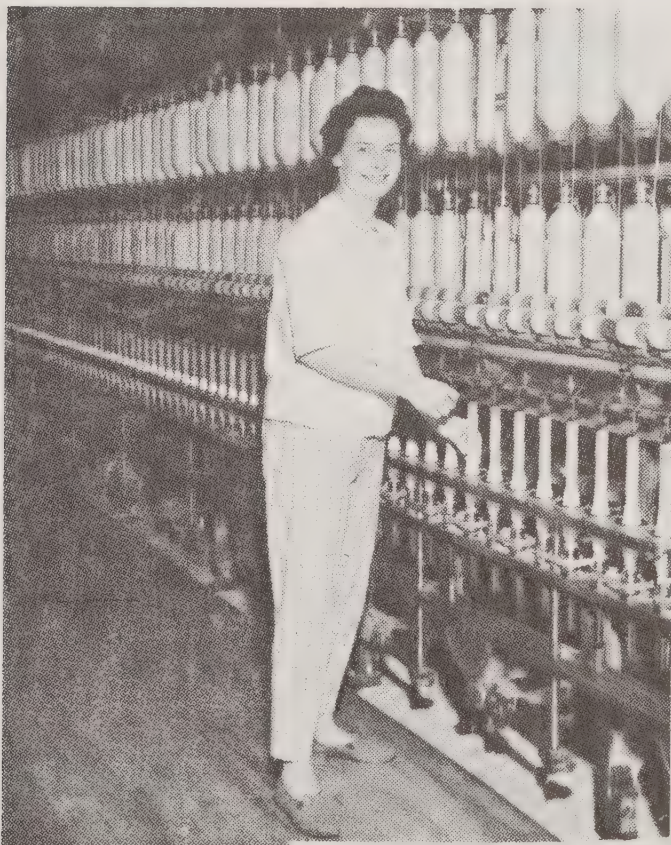

Complete and adequate transportation facilities are at your "finger tips" in Castonia. These facilities consist of three railroads; twenty-five motor freight carriers; a network of four U. S. and three State Highways; and the Charlotte Municipal Airport, fifteen miles distant, which schedules 100 passenger and freight flights per day. Interstate 85 passes through the city limits on the North.

This is a reproduction of the Woodlawn Factory or "Pinhook" Mill, as it was more familiarly known. It was built in 1849, in Gaston County, operated by water power, and was the second textile manufacturing plant in Gaston County.

Gastonia's greatest asset is its people—quick and eager to learn and conservative in their thinking.

All means of transportation are readily available to Gastonia and its varied enterprises.

Retail Trade

Gastonia's trading area includes Gaston County and spills over into three adjoining counties, with an aggregate population of 250,000. 1969 retail sales in Gastonia were \$190,258,835; and in Gaston County, \$300,718,464.

Financial

Supporting Gastonia's spectacular growth is an aggressive attitude on the part of its banking fraternity, and a formidable array of assets available from its three banks and two savings and loan associations. There are 12 local branches for the convenience of banking customers.

Educational And Cultural

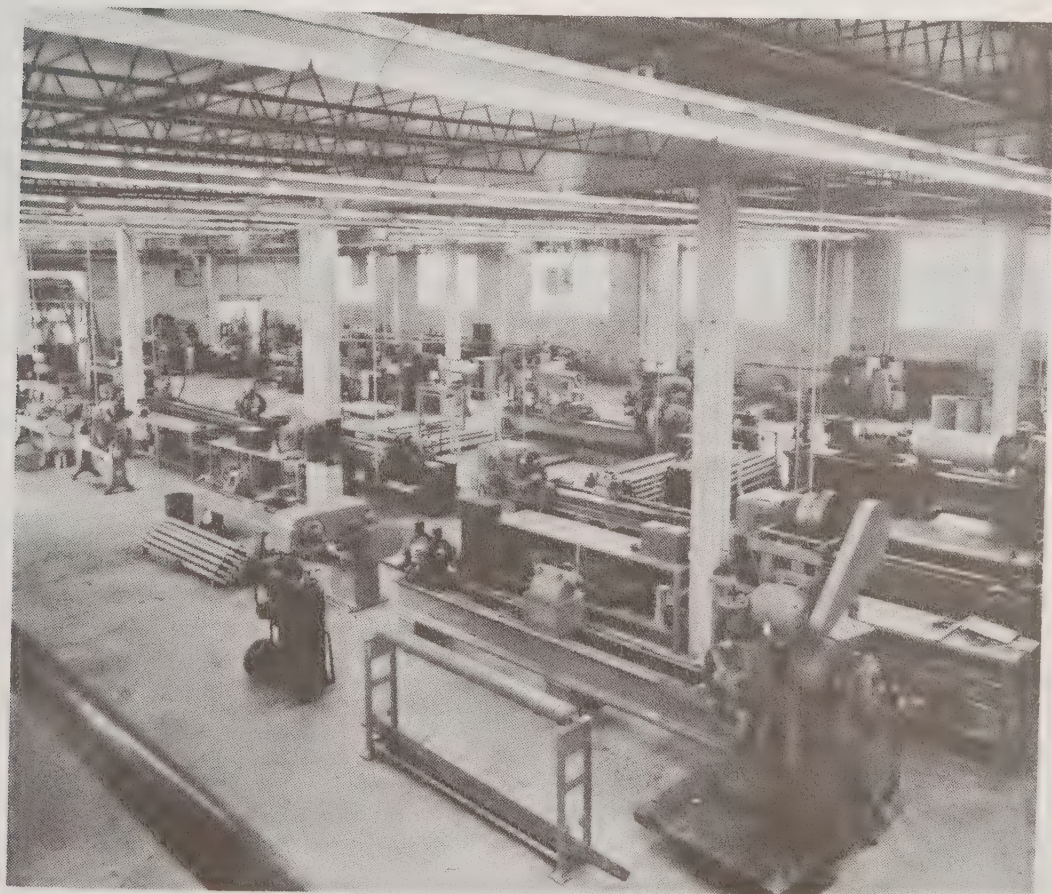

The educational facilities of the community are closely adjusted to its industrial, economic, and cultural needs. Beyond the level of the splendid public and parochial schools are Belmont Abbey College (Senior); Gaston College, a 2-year liberal arts school; Sacred Heart Academy, a college for girls; the North Carolina Vocational Textile School; the Evans College of Commerce; Piedmont Bible Institute; and the Gaston Memorial Hospital School of Nursing. The Schiele Museum of Natural History and Planetarium has had wide acclaim for the great variety of its artifacts, mineral and animal specimens. Many choral and study groups and associations and clubs add greatly to Gastonia as an attractive place to live and do business. The County Library, with 204,000 volumes, has seven branches over the county for the convenience of all the people.

Churches and Character Building Agencies

The firm religious convictions of the pioneer settlers still persist in the Gastonia community today, as is fully attested by the countless thousands who

regularly attend services in more than 100 sanctuaries. These churches include the usual Protestant denominations found in the southeast, together with the Catholic and Jewish. Millions of dollars have been spent by local congregations in recent years for new and improved edifices. Gastonia has distinguished itself by the large number and excellence of its Boy and Girl Scout organizations, by the Boys' Club of America organization, its modern and well equipped YMCA Building, and the variety of its program for adults as well as the youth of the community.

Recreational

The City of Gastonia has a well organized Recreation Department, geared to fit the needs of all ages. There are community centers, a skeet range, swimming pools, an 18-hole golf course, a regulation athletic field, all-weather tennis courts, picnic tables, an 85-acre lake, and playgrounds for little children. This city has 13 parks, aggregating 250 acres, well distributed geographically for every potential user. Private enterprise has provided one bowling alley with 40 lanes; three golf courses; basketball courts; and fields for baseball, football and all kinds of outdoor sports. On the Catawba River are several artificial lakes created by the Duke Power dams where year-

round fishing and aquatic sports and boating are only 15 minutes distant. The Blue Ridge Mountains are only 60 miles to the northwest, and the Atlantic beaches can be reached in four hours.

Government

Gastonia operates its fiscal affairs efficiently under the Council-Manager form of government. Its tax rate is \$1.40 per \$100 of valuation, which is approximately 50% of actual value. The County also operates with a Manager.

Health and Climate

There are three hospitals with 418 beds in Gastonia, including the North Carolina Orthopedic. These institutions have all facilities for the modern

practice of medicine by the 60 physicians and surgeons who practice here. Construction has begun on a new 500 bed county hospital. The County provides a Public Health Department which is very active in ferreting out and eliminating unsanitary conditions and guarding the public health generally.

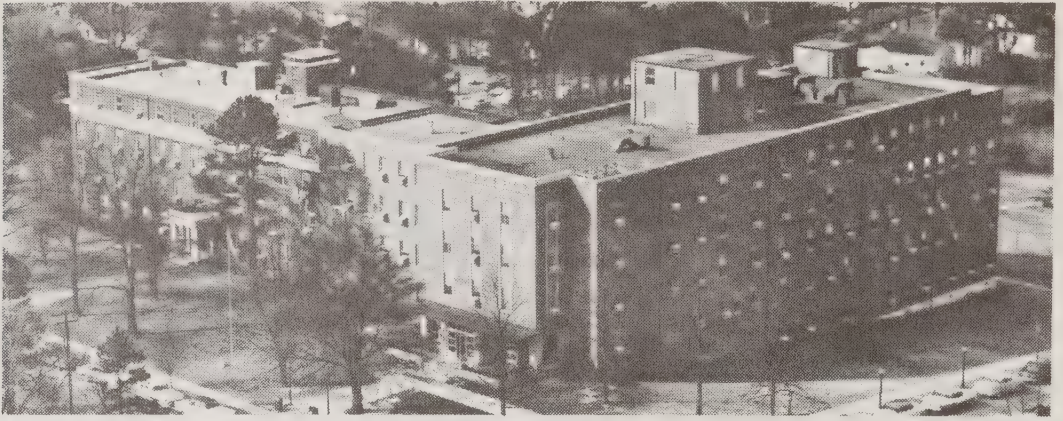

Gastonia's elevation of 825 feet above sea level and its position relative to the mountains insure against extremes of both heat and cold and excessive humidity. Below zero temperatures have occurred on only four days since 1878, and above 100 degrees readings occur on the average of twice in three years. The average growing season—frost-free period—is 230 days, extending from March 24 to November. Snowfall is infrequent and over a long period of time has averaged 5.7 inches per year.

Communications and Utilities

Gastonia has two newspapers, the Gastonia Gazette, an afternoon daily and Sunday morning, with circulation of 32,000, and the Gaston Independent, a weekly. There are 4 radio stations—WGNC, WLTC, WGAS and WAAK. Cable-

vision makes available multiple channel reception. The Southern Bell Telephone & Telegraph Company serves the area with over 70,374 telephones in the local exchange.

Water and sewerage utilities are owned and operated by the City of Gastonia, as also is electricity within the city limits. Outside, electricity is re-tailed by the Duke Power Company, Natural gas is available through the Public Service Company of North Carolina, its supply coming from the Trans-continental Pipe Line Company.

One of Duke Power Company's generating plants near Gastonia. Two million k.w. electrical energy is generated in Gaston County.

PLEASE!

Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100 PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000 PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Do your employers furnish you with
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
